

HILL SCHOOL

Hill School Remote Learning

HILL SCHOOL THURSDAY, JULY 16, 2020

Dear Hill School Family –

I am pleased to share with you Hill School's Reopening Guidelines. As you know, it is important that we reopen safely, as the safety and well-being of our students, faculty and staff are incredibly important as we move forward. While many details are provided in this working document, there are additional topics not included here that the team continues to discuss and fine tune. When an updated version is available, it will be shared with you and will be posted on our [reopening page on the Hill School website](#). After school begins, I envision adjustments will be made as we transition into the fall months.

All of these protocols are being developed to make this a safe start to the school year which will look different in many ways and will require a certain amount of flexibility and understanding. Please read the document carefully and make note of the changes. For students, one major adjustment will be to the formal dress uniform which will not be enforced in quarter 1. Should you have questions or need clarification on any guidelines, please [contact us](#).

Faculty and staff will return August 3rd and our plans will be underway! All of us look forward to welcoming students into the building and starting a new normal together.

Sincerely,

Roxann Breyer

Head of School
