

Lower School (K-4) & Intermediate School (5-6)
Carpool - Pick-up and Drop-off Line
Enter from Martin Lydon & Exit onto Odessa Avenue

Please be aware of the traffic restrictions coming off Martin Lydon. This is a ONE-WAY street during typical drop off and pick up hours. We realize traffic can get congested with our South Hills Elementary School neighbors; let's try to keep all the children safe.

Drop Off

Please do NOT get out of your vehicle if you plan to “drop off” your student at the front door in the morning. If you would need to walk them to the front door, please park your vehicle in an available yellow spot in the first row and walk with them across the parking lot. ***all students must be dropped off wearing a mask and parents will not be allowed in the building***

Pick-up

Please wait in one of the two car pool lines to pick up your student and advance as the line permits. The porte cochere is the designated “pick-up” area. Please stop under the porte cochere or next to the porte cochere to pick up your student.

Do not pick students up earlier in the line and then attempt to drive away through the middle of the line.

Please do NOT park in the parking lot, then walk across the lot to get your student. Students will be asked to remain on the sidewalk until their vehicle is stopped under the porte cochere. Please drive slowly and be vigilant for high school students crossing to their vehicles as well as new drivers leaving the parking lot. Cell phone use is prohibited. The speed limit is 10 m.p.h.

Please be patient as we all become familiar with procedures, directions, and one another.
