

APPLYING FOR HILL SCHOOL

GENERAL ENROLLMENT TIMELINE

STEP 1

Connect with Hill School

Call the school (817.923.9482) or submit a Contact Inquiry online. Our Director of Enrollment Management, Annabeth Mohon, will reach out to learn about your student and provide you with more information about all that Hill School has to offer.

STEP 2

Submit Appropriate Testing

Hill School requires a complete neuro-educational evaluation or diagnostic testing from a qualified clinician, diagnostician, or organization. The testing must have been completed within the previous three years.

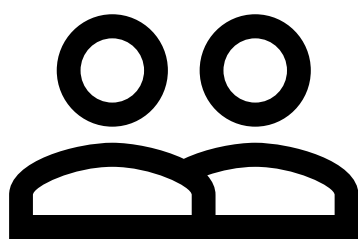

To update or begin your student's testing process, please contact Hill School for a list of recommended testing resources.

STEP 3

Interview with Ms. Mohon

Families will take a tour of the campus and learn how Hill School's unique programming could benefit your student.

STEP 4

Submit Application Forms

Once prompted, families will submit the \$100 application fee, online application and other required materials:

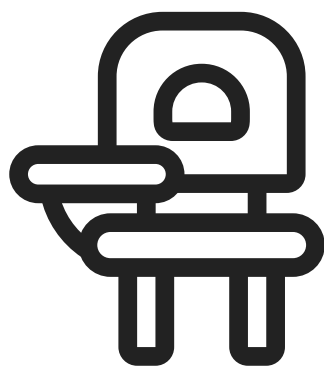

- Student's neuro-educational evaluation or diagnostic testing
- Report cards and official transcripts, as applicable
- Teacher and administrator confidential recommendation forms

STEP 5

Visit In-Person Class

Ms. Mohon will schedule a day for your student to visit the Hill School campus. Prospective students will participate in a set of coursework at their grade-level, and interact with teachers and classmates.

STEP 6

Determine Plan of Action

After the enrollment committee has reviewed your student's application, your family will join a roundtable discussion to determine appropriate placement for your student.
