

Middle School (7-8) & High School (9-12) Carpool Pick-up and Drop-off

Please note that carpool locations differ from drop-off to pick-up.

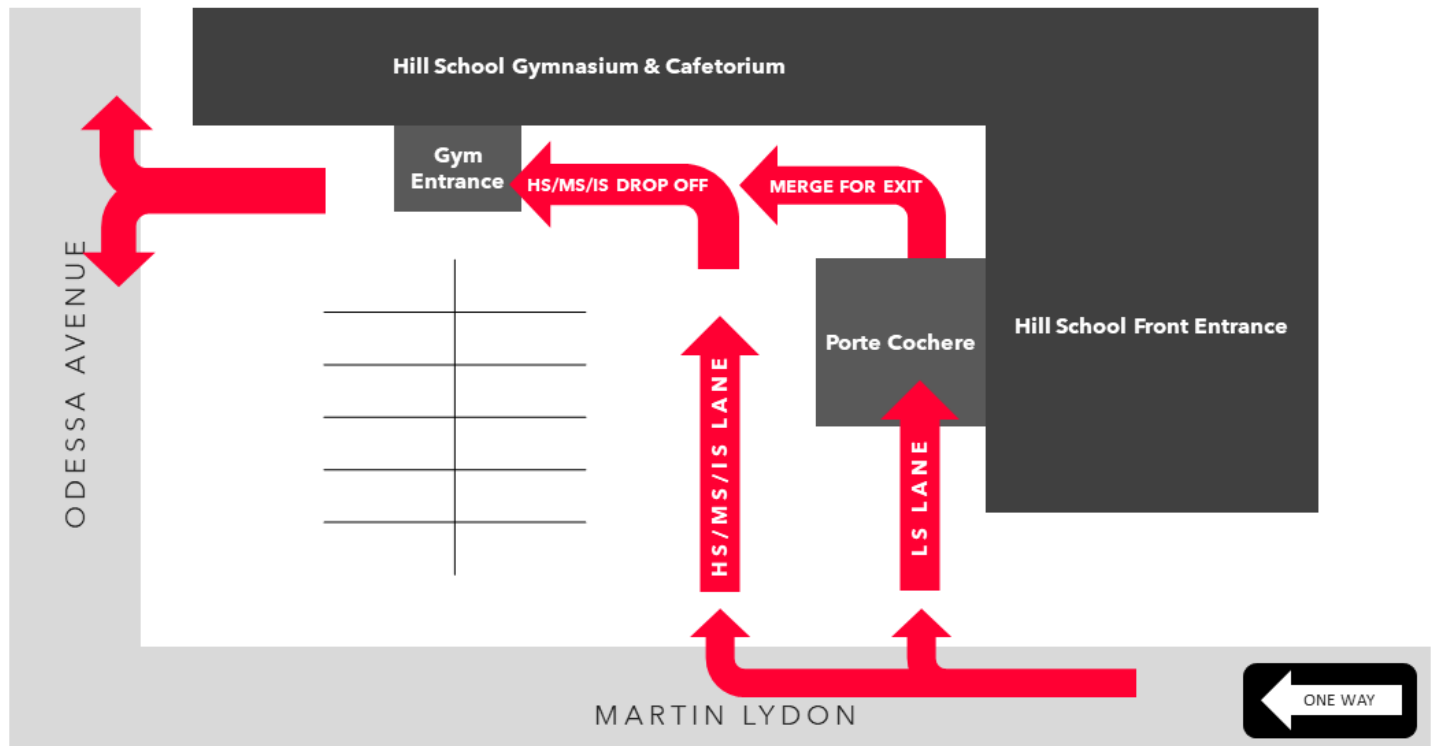

DROP OFF

Enter from Martin Lydon & Exit onto Odessa Avenue (see map below).

Please be aware of the traffic restrictions on Martin Lydon. This is a ONE-WAY street heading West during typical drop-off and pick-up hours. We realize traffic can get congested with our South Hills Elementary School neighbors; let's try to keep all the children safe.

Enter from Martin Lydon and join the HS/MS/IS carpool lane that goes along the side of the front entrance porte-cochere. Upper, Middle and Intermediate School will be dropped off at the double doors that lead into the cafetorium and gymnasium. Middle and Intermediate School students will go into the cafetorium; Upper School students will go into the gymnasium. Once your student has been dropped off with a Hill School faculty member, you may exit left through the parking lot and onto Odessa Avenue.

HS All School Carpool Drop Off

PICK UP

Enter from Odessa Avenue & Exit right onto Bilglade (see map below).

Enter from Odessa Avenue and join one of the two carpool lanes. Be sure to have your student's name plate visible on the right side of your vehicle's dashboard. As the line permits, please advance toward the designated "pick-up area" at the porte-cochere. Please stop either under the porte-cochere or next to the porte-cochere to pick up your student. Hill School faculty members will help students to the appropriate vehicles. Once you've picked up your student, you may exit through the parking lot and turn right onto Bilglade.

Do not pick students up earlier in the line and then attempt to drive away through the middle of the line.

Please do not remain under the porte-cochere if your student is not readily visible and heading towards the car; waiting in the designated pick-up area stalls those behind you and may cause others to be late picking up multiple students at multiple schools. If your student is not ready/present, please pull far ahead or park in a spot off to your left. A teacher/supervisor can then walk your student to the car as soon as he/she arrives.

Please do NOT park in the parking lot, then walk across the lot to get your student. This can be dangerous as student drivers are also leaving the parking lot. Students must be picked up from the carpool lanes. Students will be asked to remain on the sidewalk until their vehicle is stopped under the porte-cochere. *Four teachers are on duty to ensure a smooth dismissal process and oversee student safety.*

Please drive slowly and **be aware** of high school students crossing to their vehicles as well as new drivers leaving the parking lot.

Cell phone use is prohibited. Students must load from the curbside only and may not change drivers.

Please be patient as we all become familiar with procedures, directions, and one another.
